Your VIU Online Student Record: Your online student record is your toolbox of self-serve resources. Once you are provided with a VIU student number, you can access your online student record.

On the main page of your record you will see important messages below your name and address. These are updated frequently so please check them each time you log in.

On the left-hand side of the screen is a list of services. Most registration services are available online here; you can register for courses, pay your fees, update your address, and much more. Please become familiar with these tools as they will be very helpful throughout your time as a student at Vancouver Island University.
